INTERDEPARTMENTAL COMMUNICATION

To: Planning Board **Date:** June 8, 2006
From: Kristin K. Alexander, AICP, Assistant Town Planner *KLK*
Subject: Quail Ridge Country Club - Golf Ball Complaints from Great Road Condominiums

Issue

During the last week of May, Mr. Bill Blocker, the man in charge of maintenance at Great Road Condominiums (GRC), contacted the Town to report that golf balls have been flying over the driving range nets at Quail Ridge Country Club (QRCC) and landing on the GRC property. Mr. Blocker said he and others at GRC are concerned that children and vehicles could be hit by flying balls. He also reported that some people living at GRC do not want to renew their leases because of the situation. Mr. Mike Donahue, General Manager of QRCC, informed me that he had received several messages on his voice mail complaining about golf balls flying over the driving range nets and landing on the GRC property. He said all the messages sounded like they were the same caller, but the caller(s) never left names or phone numbers. Mr. Donahue also told me that he received a call from the Acton Police Department on June 2, 2006 stating that the Police Department received a complaint about golf balls flying over the driving range nets and landing on the GRC property (see attached report). Mr. Donahue had a QRCC staff person investigate who was on the driving range at that time. QRCC staff found a man and his 6 year old son. QRCC did not confirm whether the father and son hit any balls over the net.

History

Last year, the Acton Police Department received several calls from GRC about golf balls flying over the driving range nets and landing on the GRC property. These reports are also attached. One vehicle parked at GRC was damaged by a flying golf ball. Most complaints were received when the driving range was open, but one complaint was received when the range was closed and no one was on the range. Mr. Donahue is aware of one person who hit balls (two balls) over the driving range nets. In response to the complaints, QRCC raised many of the driving range nets to the maximum height allowed in the QRCC Planning Board decision: 75 feet. Mr. Mike Donahue also offered to GRC residents to pay for any damage done to residents' vehicles by flying golf balls from the driving range. He said residents could bring him the repair bills and he would pay them in full. Not one person has ever contacted him about damage to their vehicles.

Site Visits

I met with Mr. Blocker at GRC on May 30, 2006. He showed me where the balls have been landing. He said balls landed on the property on different days at varying times. Mr. Blocker suspects balls might still be flying over the nets because most people/golfers are right handed and the golfers tee off at an elevation higher than where the nets are installed and higher than the GRC property (for example, the tee off area could be 25' higher than the base of the net, so

the 75' high net is only as effective as a 50' high net). Mr. Blocker told me that children have been seen picking up golf balls even though they have been asked not to. We did not see any balls on the property.

Garry Rhodes, Acton's Zoning Enforcement Officer, and I met with Mr. Mike Donahue and his superintendent at QRCC on June 6, 2006. They showed us the driving range and associated nets. The first few sections of net closest to where people tee off at the range are 75 feet in height. Almost 2/3rds of the way down the range, the nets are only about 50 feet high, and then the last sections of nets are lower. QRCC admitted that someone could hit the ball over the net if they were either an exceptional golfer (and tried to hit the balls over) or an extremely bad golfer. Mr. Donahue said QRCC provides the golf balls, and that they are range balls so they only travel as far as 175 to 200 yards. Usually balls fly short and high or long and low. QRCC said that most of the time a staff person is at the driving range when it's in use. If they see or suspect a golfer's swing may send balls over the nets, they have the golfer tee off on the side furthest from the nets / condominiums. QRCC told us that they have additional net extensions. They said they could install the net extensions if that is the desire of the Planning Board. QRCC also reported that they have seen children and some adults coming onto the property and taking golf balls.

Recommendation

At this time, I recommend that the Planning Board take no action to amend the QRCC decision regarding the driving range nets and that staff continue to monitor the situation. Staff did not see any balls on the GRC property and therefore could not begin to determine how they ended up there. There have been no reports/evidence of human or vehicular injuries from balls flying from the driving range since many of the nets were raised to 75' high. Garry Rhodes and I agreed that we would not want extra time, effort, and cost spent for the Planning Board to amend the decision and QRCC to install net extensions when we are unsure of the root of the problem. Additionally, based on our understanding of how the balls fly, it doesn't appear that extending the last sections of net would reduce the number of balls flying over the nets onto the GRC property. Golfers do tee off at an elevation higher than the base elevation where the nets sit, but I don't believe it is enough of a difference to be an issue. As I mentioned, I would recommend that staff keep monitoring the situation; encourage GRC to continue to immediately report all flying ball incidents to the Police Department, Planning Department and Garry Rhodes; and we will inform the Board of any further developments. At a later date, the Board could reevaluate the situation. If you have any questions or want staff to take a different approach, please let the Planning Department know.

cc: Mr. Garry Rhodes, Acton Zoning Enforcement Officer / Building Commissioner
Mr. Don Johnson, Acton Town Manager
Mr. Bill Blocker, Great Road Condominiums
Mr. Mike Donahue, General Manager, Quail Ridge Country Club

On June 2, 2006, I was working the 3-11 p.m. shift in marked police cruiser #29. At approximately 5:40 p.m. I was dispatched to 388a Great Rd., for a report of another golf ball that had been hit over from Quail Ridge Golf Course onto the property of 388a Great Rd. Upon arrival I spoke with the reporter, Hyim Shechter. Hyim stated that the issue of golf balls flying over onto the property has not been resolved. Hyim then showed me the golf ball that had landed on his property. I advised Hyim that I would secure and log the golf ball as evidence and that a report would be on file.

Upon arrival I spoke with the caller, Brian Carver. Brian advised that he was in his apartment when he heard a loud bang, which he believed was a golf ball from the range hitting one of the parked cars. Brian advised a report of damage to another vehicle had been made last week because of a golf ball hitting a car. I was advised by Brian that he came out and checked around but did not see any damage to the vehicles that were there. I also made a check of the area but was unable to locate any damage. I checked the wooded area between the driving range and the parking lot and did locate some balls from the driving range on the outside of the safety netting. The balls that I located were in the area that the netting starts to become lower</p>

in height. After speaking with Mr. Carver and checking the area I went over to the club and spoke with one of the employees. I was advised that the range had just opened at noon today and the club was limiting it's use to short distance irons that would not have been able to cross the net today. I was also advised that there are plans to extend the height of the netting further down range to resolve any problems in the future. It was also brought to my attention that kids from the apartment complex have been coming onto the range and taking some of the range balls back to the complex. I advised the club's management to post no trespassing signs along the property line and to call the Department if this occurs again.

Respectfully Submitted,

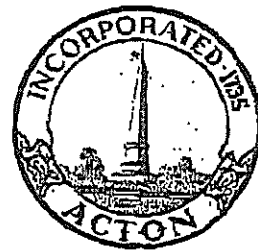

Ptl. Dean Keeler #65

I RESPONDED TO 388 A GREAT RD APT 11 ON A REPORT OF A CAR WINDOW DAMAGED BY A GOLF BALL. UPON ARRIVAL, I SPOKE WITH RESIDENT HYIM SCHECHTER. HYIM POINTED TO HIS CAR MA REG 90CZ29 (2000 DODGE STRATUS PURPLE). I OBSERVED THE REAR WINDOW TO BE COMPLETELY SHATTERED. HYIM HAD A GOLF BALL IN HIS HAND THAT HE RETRIEVED FROM THE CAR. THERE WAS AN INDENTATION WHERE THE GOLF BALL IMPACTED THE BOTTOM RIGHT SECTION OF THE REAR WINDOW. I GAVE SCHECHTER THE CASE NUMBER AND ADVISED HIM TO CONTACT HIS INSURANCE COMPANY. WHILE SPEAKING TO HYIM, I OBSERVED A GOLF BALL SAIL THROUGH THE AIR FROM THE DRIVING RANGE CLEARING THE PARKING LOT AND LANDING JUST SHORT OF HITTING THE APARTMENTS. I THEN RESPONDED TO THE GOLF COURSE.

On July 11, 2005, myself and officer Sturniolo were working the 3-11 p.m. shift, in marked cruiser #23. At approximately 4:49 p.m. I was dispatched to 388 A Great Rd. Apt. #11 to speak to. Htim Shechter about golf balls that are on his property that are coming from the driving range at the Quail Ridge C.C.

Upon arrival I was met by Htim in the parking lot. Htim stated that 4 range balls had came onto his property from Quail Ridge. Htim was concerned because his daughters were playing outside while this happened. The four range balls were taken as evidence. I advised Htim that I would file a police report and I would go speak to a manager at Quail Ridge.

Myself and officer Sturniolo then went to Quail Ridge to speak to the manger. Upon arrival I spoke to Maria Sarcia. I told Maria about the incident today. Maria stated that she would close down the driving range until they could figure out the problem. The 4 golf balls were secured in the departments evidence locker.
